Subject: Request for recount for November 2, 2010 City Council Race

Dear Ms. Basore,

The following registered voters in the City of Ojai request a machine recount of the November 2, 2010 City Council race. Because of the error caused by a system breakdown by the Elections division, we feel it necessary to request this recount so the voters in Ojai will have confidence in the outcome of this very close city council election. We believe this re-count should be paid for by the county. So that we might not have to pay for this recount, we make this request on behalf of Ojai City Council candidate Leonard Jay Klaif.

We request to have at least two representatives present the entire time of the re-count. We also welcome at least one representative be present to represent candidate Carol Smith.

We request the precinct votes, mail in votes, and provisional votes be counted and reported separately by precinct, and compared alongside the precinct, mail in and provisional votes for each precinct currently reported for this election.

We request access to the voter information provided with each provisional ballot that has been counted in this City election. We plan to compare the number of approved provisional ballot requests to the number of provisional ballots counted.

Sincerely,
